2020/2021 Scholastic Year Parent Circular No.28B

Form 2 to 5 "Bring Your Own Device (BYOD) Scheme" - Purchase mobile computer device (iPad)

22nd October, 2020

Dear Parents/Guardians,

Our school has been committed to promoting e-learning to enhance students' interest and motivation in learning and classroom interaction. To further cultivate students' self-learning and self-reflection, our school will implement the "Bring Your Own Mobile Device (BYOD) Scheme" starting this school year. Students are encouraged to bring their own mobile devices back to school for e-learning and extend their study at home. To facilitate learning activities and smooth running of the application software, the mobile devices must meet the specified specifications (Apple iPad 10.2 inch 128 GB WiFi) and be equipped with a Stylus (Apple Pencil).

If students already have a mobile device which meets the above requirements and the necessary accessories (see the table below for details), students can bring it to the school for use. However, our school will install a mobile device management program (MDM) in the devices. Students are not allowed to install other applications which are not related to learning. The devices shall be used for learning only.

If students do not have a mobile device which meets the specifications, parents can choose to purchase a device that meets the above requirements by themselves, or order from the contractor (Note) through our school at a discounted price. If students are receiving Comprehensive Social Security Assistance (CSSA) or full grant/half grant of the School Textbook Assistance Scheme, they can also get full or half subsidy through the Community Care Fund Assistance Programme – Provision of Subsidy to Needy Students for Purchasing Mobile Computer Devices to Facilitate the Practice of e-Learning" (hereinafter referred to as the "Community Care Fund Assistance Programme").
