14th April, 2021

Dear Parents / Guardians,

The Education bureau announced the measures to optimise the Four Senior Secondary Core Subjects. Our school makes use of this opportunity of optimising the curriculum to review and plan it in a holistic manner, and release space to varying degrees in order to cater for students' diverse learning and development needs. At present, students of our school can choose two elective subjects, and the admission requirements of UGC-funded universities require students to have taken at least two elective subjects. Since we would like to know parent's opinions on the number of elective subjects, please reply us in the reply slip by indicating your preference.

In addition, the EDB has decided that Combined Science will be phased out at S4 from the 2021/22 school year, our school also will switch to offer Physics as an additional elective to strengthen students' science knowledge foundation.

Please sign the reply slip and return it to the class teacher on or before Tuesday, 20th April. If you have any enquiries, please call 2293 7727 to contact Career Mistress Ms. YUEN Sin Yan.

Thank you for your attention.

Yours faithfully,

Dr. Chung Chi Yuen, Stanley
Principal

Consecrate them in the truth; your word is truth. (Jn 17 : 17)
